

### Version 1

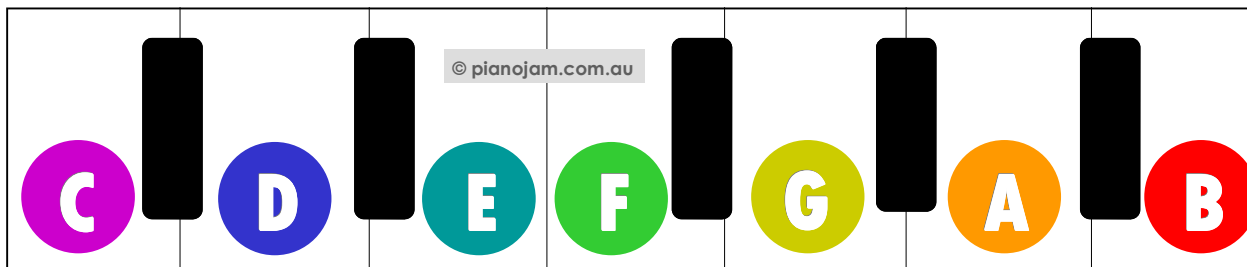

### Version 2

### Version 3

### Version 4

### Instructions for use

1. Print this sheet and determine which version best suits.

#### Version 1

One octave (black notes labelled)

#### Version 2

Use for labelling multiple octaves

#### Version 3

One octave (black notes not labelled)

#### Version 4

Use for labelling multiple octaves

2. Cut along the outer border of the note label. Slide the label behind the keybed, and line up the black strips with the black keys on your keyboard or piano.

### Tips:

For durability adhere the template to card stock with craft glue or double-sided adhesive paper.

To reduce the student's dependence on the labels, remove them after he or she can confidently play a song.
